

UTC Bolton takes a new and different approach to education...

UNIVERSITY
TECHNICAL COLLEGE BOLTON

UTC Bolton is the first school in the UK specialising in Health Sciences and Engineering Technologies for 14 to 19 year olds set inside a university campus. The UTC provides outstanding technical and academic education by working closely with local employers to create the next generation of scientists, healthcare practitioners, engineers and entrepreneurs. Students have access to world class resources and facilities, a curriculum developed in conjunction with business partners and delivered by experts both in and out of the classroom.

As a result of being part of the 'Teaching Intensive Research Informed' University of Bolton, staff benefit from exceptional academic opportunities and professional development.

We wish to appoint an outstanding teacher to the following position from January 2018.

- **Teacher of Science (MPS or UPS) – Ref: UTC-011/A**

This is a unique opportunity; no other type of school can prepare students for university and the world of work in this way.

- Are you genuinely able to make a difference to the lives of young people?
- Do you have a passion for educating students that does not end with their GCSE or A Level results, but that thinks beyond to truly improve their life choices and chances?
- Do you work collaboratively to achieve the highest possible standards of work and conduct, not only in your planning and delivery of outstanding teaching, but also in your commitment to coaching and mentoring in order to guide students through their individual learning journeys?
- Are you committed to innovation in your teaching, your professional development and developing your professional network?
- Will you support the delivery of project based learning based on real professional opportunities?
- Will you maximise student outcomes whilst supporting the delivery of master-classes and student work placements?
- Have you pioneered new ways of teaching to enhance students' experiences and outcomes?

Do you have what it takes?

If you do then come and share in our vision of aligning education with the needs of business communities in the health sciences and engineering technologies sector.

For further details visit: utcbolton.org/jobs/ or contact the Principal (l.mcdaid@utcbolton.org).

A range of additional recruitment and retention incentives may be available for the right candidate.

Closing date – Tuesday 17th October 2017 at 12 noon

Interviews – w/c 16th October 2017

Applicants should complete an application form (which should be accompanied by a short covering letter). Please return your completed application form to: jobs@bolton.ac.uk.

Candidates must be eligible to work in the UK, for more information please visit <https://www.gov.uk/check-uk-visa>.

*Please note, UTC Bolton reserves the right to shorten/extend the closing date of any position where a high/low volume of applications are received.

Please note that UTC Bolton is committed to safeguarding. Therefore, candidates will be expected to demonstrate a strong understanding of safeguarding and appropriate checks will be carried to ensure suitability for the role.
